Software VCA support (additional licensing for analytics)	Not Available			
Software watchdog	Available			
Storage configuration per camera				
Support for Digital Inputs / Outputs	Not Available			
Supported cameras/devices		> 4000 models		
Supported video stream resolutions	FullHD/Lower	Unlimited	Unlimited	
System monitoring				
User audit	Available			
User permissions per each resource/component				
Unlimited number of external devices (smartphones, tablets), that stream only ***New in 1.12.0***	Not Available	Available	Available	
Video and Audio recording by Motion	Available			
Video capture board support				
Video Wall support	Not Available			
Virtual Machine Environment support *** Requires constant Internet Connection ***				
Web application connections	1 Per Server	Unlimited	Unlimited	

Feature list per editions (v1.12.0 Jan. 28 2019)				
App	Features	Prime	Premier	Global
Mobile and Web	Server connections	One	Unlimited	Unlimited
	Mobile offline video(edge) support with later upload to server	Not Available	Available	Available
	Mobile support for substream/edge/offline stream playback			
	Mobile support for Android-TV			
	Mobile Camera streaming embeded GPS Meta Data			
	H.264 streaming to Web and Mobile applications			
	Live video substream support			
	Up to 6 cameras per single live view for Mobile apps.			
	Up to 4 cameras per single live view for Web application			
	Hardware GPU utilization for Mobile application			
	Custom view layouts			
	Two-way audio support			
	Receive audio from Client GUI			
	PTZ control			
	PTZ presets			
	Archive playback			
	Save snapshots			
Google Chromecast support				
Video & audio streaming from mobile devices				

Feature list per editions (v1.12.0 Jan. 28 2019)				
App	Features	Prime	Premier	Global
Events & Actions: Events	Access Control - Keri Systems Doors.NET "Events"	Not Available	Available	Available
	Access Contro - Keep by FEENICS "Events"		Not Available	
	Central server connected			
	Central server disconnected			
	Channel Group as an event source ***New in 1.12.0***			
	Digital input			
	Disk excluding			
	External event triggered via HTTP API ***New in 1.12.0***			
	External service (LPR/FR)			
	Fallback activating			
	Global event			
	Motion			
	Motion started			
	Motion stopped			
	OPC (Open Platform Communications) Client Event			
	Periodical Event function			
	Recording error			
	Per channel support for "Recording error" ***New in 1.12.0***			
	Per channel support for "Recording recovered" ***New in 1.12.0***			
	Scheduled event			
	User button clicked			
	Variable Condition Event function			
	VCA event (edge/server-side)			
Video lost				
Video restored				
Video Wall ***New in 1.12.0***				

Events & Actions: Actions	Access Control - Keri Systems Doors.NET "Events"	Not Available	Available	Available
	Access Contro - Keep by FEENICS "Events"		Not Available	
	Action to highlight user button on map by events			
	Activate global event			
	Activate main stream recording profile			
	Activate PTZ preset			
	Activate substream recording profile			
	Control digital input			
	Create archive bookmark with a user acknowledge option			
	Export Snapshot to local/mapped/FTP directory			
	External service action			
	Generate alert for main stream (for alert-based recording)			
	Generate alert for substream			
	Highlight object on map			
	OPC (Open Platform Communications) Client Action			
	Pop up an object on screen (channel/map/layout)			
	Pop up an object on video wall display			
	Pop-up playback on screen (Action: Pop-up instant playback for event review)			
	Run program			
	Send email			
	Send email with a snapshot			
	Send event to client: Display a Warning message box			
	Send event to client: Display event in Alerts			
	Send event to client: Display event in Notification panel			
	Send event to client: Trigger audio notification			
	Send HTTP request			
	Send notification to mobile application			
	Send SNMP trap			
	Set condition			
	Software counters controlled by any generic events			
	Start playing an audio file			
	Stop playing an audio file			
	Unset condition			
Variable Condition Event based on VCA Counters value (more, less, equal)				
Write to application log				
Write to audit log
