

Product Release Information

Product	VCAbridge
Version	0.3.84 (Barbican-2 hotfix)
Release Date	15 February 2018
Filename	vca-bridge-0.3.84-20180215.vcapkg
Download Link	https://s3-eu-west-1.amazonaws.com/vcatechnology/vcabridge/releases/vca-bridge-0.3.84-20180215.vcapkg
Documentation	http://support.vcatechnology.com
Approved By	Ben White

Special Instructions

Since the UI is not accessible in Chrome versions 63 and higher, it's not possible to access the UI to load the new firmware. Therefore, in order to upgrade units on earlier firmware versions (where the UI cannot be accessed), there are two possible approaches:

- Use Chrome v62 or earlier, a version which does not update (for Windows) is provided at the following link:
<https://www.dropbox.com/s/aoyhy3qo9gzhndw/Chrome62.zip?dl=0>
- We have provided a command line tool that can upgrade single and multiple units (for Windows and Mac OS X). Full instructions and download links available below:
 - Instructions:
<https://s3-eu-west-1.amazonaws.com/vcatechnology/tools/UpgradeTool.pdf>
 - Windows download:
<https://s3-eu-west-1.amazonaws.com/vcatechnology/tools/Upgrade.exe>
 - Mac OS X download:
<https://s3-eu-west-1.amazonaws.com/vcatechnology/tools/Upgrade>

Supported Products

- VBP3500
- VBP2000

Changes in This Release

Bug Fixes

This release contains fixes for the following issues:

- UI does not work in Chrome versions higher than 62
