

GH-24KIT

DUST-TIGHT AND WATERPROOF OUTDOOR HOUSING

Model GH-24KIT

- Accepts most common camera & lens combinations including computar® 5-50mm varifocal lenses
- Dust-tight and waterproof for 'all-weather' performance (IP 67 rating)
- Heater with thermostat & sunshield standard
- Pre-assembled power & video cables included
- Concealed power & video cables feed through bracket

FEATURES & SPECIFICATIONS

This stylish housing series has been designed to accommodate the most common camera and lens combinations available in the market, including 6x zoom lenses and 5-50mm **computar®** varifocal lenses.

The kit includes the GH Housing with heater, wall bracket, sunshield and power/video cables. The GH-24 is constructed of die-cast aluminum and fiberglass with o-ring seals that allow its use in the toughest weather conditions.

A flow-through air channel between the housing body and extruded aluminum sunshield provides the best heat dissipation results, maintaining the highest level of protection for the camera & lens in high temperatures.
